This is how I feel about climate change

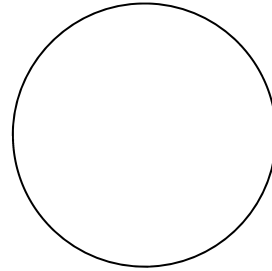

This is how I feel about the targets the Australian Government has set for the UN climate talks in Paris

Dear Julie,

I understand that you will be representing Australia at the next round of UN climate talks this November, in Paris.

We know that you understand the international language of emoji. This postcard expresses how I feel about this issue, more succinctly than a long letter.

Please understand that many people are deeply concerned about this issue, for ourselves and for our children. We hope you will bear this in mind in Paris.

I believe that Australia should be making stronger efforts and setting stronger targets to combat climate change, and urge you to make more efforts in this regard.

I will consider this issue when I vote. *(Delete any parts if not applicable)*

Yours faithfully,

(Name)
